

Roger Peterson di Intwine

SUPPORT YOUR LOCAL MUSICIANS!! even if they dont play "local music"

1. Con Roger ta sinti su mes di por ta back na Aruba cu vakantie, despues di basta tiempo?

- Well its very nice to be back and have some family time. The times I came down for the gigs and to shoot the you clip I hardly came home.

2. Kico e anja 2005 cu a pasa tawata pa Intwine? E tawata un anja exitoso? Bo ta contento cu e logranan?

- Well yeah,...we released our second album which we are very proud of,...including what we did with cruel man. I think we got closer as a band and really know what we want.

3. Con e acceptation pa Intwine ta na Europa? Nos pora wak cu den algun pais boso songs a jega Top of the Chart. Abo ever lo a pensa cu esaki lo tabata posibel?

- Well no not really....you just start off thinking small....being realistic....I mean, when we saw our clips on MTV we thought that was the top....but you notice after a while there is sooo much more to be done and to achieve...and seeing things happen abroad is one them. Its really nice to know that people appreciate our music....not because of me being on a tv show...or me being an aruban but because they like the music.

4. Manera nos tur por a waak den nos updates Intwine a pasa door di algun cambio di ora cu e la cuminsa pa awo,(cambio di bandmembers etc) esakinan comoband a afecta bo(so) y den ki sentido?

- Well of course you have to get used to the new people themselves..i mean as being new in the band. The music changes as well...they just happen to play different..so yeah...the sound is gonna change.....you just have to make sure its in a

good way. What always bothers me is that people think..oh look..somebody left the band....i guess things arent going that good...and they compair us to other bands who have been playing together for years. What they forget is that we didn't have a normal "band start" Things went very fast for us and people had to get used to the lifestyle pretty damn quick. Normally a band grows in time....and everything goes slowly as in years but with us it was a few months and we were together with

the big bands in holland. That is allot for a person to go through and some people cant really deal with it. The pressure, the responsibility, the change in lifestyle...being stuck with your bandmembers all the time.....Alot of bands also go through changes before they become "famous" Its a normal proces to find the right band and the right chemistry.

5. Tur band sa tin nan aventuranan cu nan a pasa aden.... Tabatin un gig cu bo a ever jega di haci

cubo ta pensa damzzzzzz NEVER AGAIN?

DIMES!! hehe...There are always things you do...especially in the beginning. You end up looking back and going...."well.....we had to do that to get ahead and to kiss @\$@"...but neeeever again.

6. Kico nos por spera den anja 2006 pa cu Intwine?

Kico ta boso meta of kico boso tin prepara pa e anja 2006 aki?

We're busy now with our 3rd album....which will probably be released in March/April.

A 2nd Dvd is in the planning.....with gigs, behind the scenes and other band related....stuff..hehe. We're also gonna try and do a " theater tour".....this will be the setup well be doing in Cas di cultura...an acoustic more Caribbean gig.

There are also some plans for heavy promotion in Germany and we're also going to brazil.

7. Nos tin entendi cu boso ta preapra pa bai Brazil na February? Y tambe cu boso ta geschedule pa ta na Alemania den World Cup 2006. Conta un tiki mas di e tournan aki?

Brazil was organized by "Mundial" a world festival in Holland. We're gonna do some charity events and gonna give some workshops in the favelas there.

Germany is just a part of some normal promotion....having to do with radio and tv.

8. Nos a compronde cu Intwine lo ta dia 11 & 12 di Maart 2005 na Aruba pa asina hunto cu Entertainment Group y Cas di Cultura celebra e 10 anivesario di PanCayente? Conta nos un tiki mas di esaki?

Well of course we wanted to come back and do a normal gig...which we do every year...but this time we wanted to add something special at the Cas di cultura gig. This will be an acoustic more Caribbean gig. All the songs will be played acoustic....or unplugged.....but all be in a Caribbean style. The Havana gig will be "loud and hard" as usual...hehe

9. Kico nos por spera dia 11 maart di e Electric Concert na Havana? Kico boso tin prepara pa e anochi aki?

I first of all wanna make it clear that this is NOT a dresscode. This will just be a normal electric gig which we normally do in holland. Probably the set will be a bit different seeing as we'll probably play some new songs as well.

10. Y kico Aruba lo por spera di Acoustic Concert cu lo tuma lugar na Cas di Cultura? Nos tin entendi cu Intwine pa prome biaha lo bini cu algo full diferente un ambiente mas relaja y teatral pa e amante di musica 'Unplugged' y musica Latino-Caribense algo full diferente bisto. Conta nos mas di esaki?

Well yes this will be very different for us...We haven't done something like this before. We've done the whole acoustic thing but not like this...guess you 'll just have to be there and see it....

11. Nos a tende cu pa final di Maart boso lo tin un single of album nobo riba mercado. Kico tin di berdad atras di esaki? Ki tiempo di musica nos por verwacht den riba e CD esaki? Algo den e mesun direccion di e CD Slow Down?

Yes we are planning to release a new album....hopefully sometime in March/April. It will probably sound different than both albums (1 Intwine,

2 Perfect). I think it's very important for a band to evolve and to grow which i think we did.....seeing as we've been playing longer together and we have new guys in the band as well.

12. Akinan nan tin e pensamento cu music ta un hobby cu bo lo nunca por gana placa cu ne of after a few years mihor bo giver up e pensamento di bira famoso. As a person abo a pensa EVER cu bo lo a jega asina leu den e music business?

Of course growing up here its a dream that'll always be far away....or further than if you we're living in Europe or the us. The island is very small and people tend to think small as well....They only care for "local" music and forget that there are enough people out there who make other music as well and that there is a market for it. There is very little support from the press, radio or tv. Allot of parents don't even support there own kids in what they do. There aren't many places left for bands to play. This all makes it very hard for someone to still have dreams of becoming a professional musician or making a living with it. Let alone becoming "famous" if that's what you want to call it. Money wise there is nothing set for musicians. Musicians that write, produce and try and sell there own music. I know there is a lot band when carnaval comes around cause then there's money to be made.....but anything else?....No i never thought this would happen....and its a chance of a lifetime....and im enjoying the ride.....

13. Ki mensahe bo tin pa hobennan cu tin esaki as nan goal pa nan achieve?

Just believe in yourselves....practice....try and organise band nights or whatever...try and get gigs...and think big...think bigger then just what happens here on the island. Help each other out as bands or musicians. People here on the island have to be there for each other and support each other. Don't wait for a foreign band or musician to come around to be good. Our musicians are damn good as well and they deserve all the respect and support.

14. Bo tin un hende special aworaki den bo bida amoroso? Con bo ta deal cu esaki dor cu bo ta artista.? Ki ora bo diferencia cu un chick kier bo paso e ta stima of e kier bo paso bo ta famoso of tin sen?

Uhm...no not at the moment. It is very hard indeed to know if someone likes you for being your stupid silly self...or because you happen to be on tv. Maybe they think you're loaded....or just wanna show off to other people. Time and lifestyle is a big factor as well. I live at night. Most people that have normal jobs or go to school don't. Its very hard to combine like that.

15. Bo mensahe pa Aruba mes of loque bo kier pa nan sa? SUPPORT YOUR LOCAL MUSICIANS!! even if they don't play "local music".

Think bigger then they thought you to think. Don't forget there is a whole other world out there. And that there are better ways of doing things....don't just say..."aayyo bo mes sa con cos ta bai akinan bla ba"...Think about things and make it better....not only in music but everything else as well....if we wanna compete with the rest of the world we better start acting like it as well.
